## NEW RENAULT KAPTUR REVEALED IN RUSSIA

- Updated exterior and completely revised interior with a new level of quality and ergonomics.
- Thanks to a high ground clearance and all-road ability, high performance suspension and intelligent four-wheel drive system, the new Renault Kaptur is perfectly suited for road and climate conditions of various regions of Russia and CIS countries.
- Renault Kaptur is fitted with a TCe 150 turbocharged petrol engine mated to a new generation X-Tronic

Renault Russia opens a new chapter in its product history with the reveal of its New Kaptur. Since its launch in 2016, more than 100,000 Russian customers became owners of Renault Kaptur, which has been in Top-10 bestselling crossovers ever since. The new Renault Kaptur is set to reinforce Renault's position in the Russian market and targets mainly city residents who value distinctive design, customization options and advanced technology as high as reliability and readiness for any surface type.
