The New Renault Duster in Russia: the legendary SUV renewed

- **Renault Duster completely renews its design for the Russian market.**
- **A distinctly assertive and robust look with a new Atacama Orange metallic colour and a variety of exterior design options.**
- **A real legend in the compact SUV class for the past 8 years, the All-new Renault Duster aims to continue its success story.**

Having become an icon in its category, the All-new Renault Duster reveals itself in a new light. While maintaining its legendary off-road ability, it has an increasingly assertive and robust look with a variety of exterior design options and a new metallic Atacama Orange colour.

The All-new Renault Duster features a more assertive, modernized design: sculpted surfaces, new grille and new LED daytime running lights. Its profile with a high beltline reinforces the impression of robustness and its new, more sloping windscreen gives a more dynamic look and improved visibility.

Finally, the All-new Renault Duster reinforces its SUV character with its embossed wheel arches underlined by additional extenders and side mouldings at the fender level.

In its eight years of existence on the Russian market, the Renault Duster has already won over more than 440,000 fans thanks to its qualities as an adventurer perfectly adapted to the weather and road conditions. Following in the footsteps of its predecessor, the All-new Renault Duster intends to continue this saga.

About Renault

Renault is the group's global brand, available in 134 countries and sold in over 12,000 dealerships. As the leading French brand in the world, Renault has always sought to reinvent mobility through the development of innovative concepts. The brand's models, with their inviting, seductive contours, ease the lives of their drivers thanks to their versatility, connectivity and intuitive features. Every day, Renault innovates to make everyday life easier for customers so that they can live their lives to the fullest.
