ALL-NEW RENAULT AUSTRAL: QUALITY THAT IS EASY ON THE EYE

ALL-NEW RENAULT AUSTRAL UNVEILS MORE OF ITS FEATURES AND IS TODAY INVITING YOU TO DISCOVER THE CARE GIVEN TO THE CREATION OF ITS INTERIORS. FROM THE DESIGN, TO THE CHOICE OF MATERIALS AND THE EXCELLENCE IN ITS CRAFTSMANSHIP... ALL-NEW RENAULT AUSTRAL IMMERSSES PASSENGERS IN AN ELEGANTLY MODERN COCOON.

Renault's design and engineering teams made sure that the level of quality be immediately palpable. Everything a passenger is likely to touch has been made to feel softer and more enjoyable. Much thought went into choosing materials for a stylish trim with a visibly high-end feel.

Francois FARION, Renault brand Head of Colour and Trim

"For our All-New Renault Austral, we have carefully chosen the materials and we took special care in its workmanship, much like the open-pore real wood finish."

AN ELEGANTLY TIERED DASHBOARD

In the upper section, the dashboard cover has been removed and the dash is covered with a matt finish and padded cover, very soft to the touch. The light strip extends through to the door panels, thereby enhancing the overall visual appeal. Fine quality materials, such as real wood treated according to the japonsese technique *maki-e*, elevate the interior design. This cabinetmaking technique highlights the natural grain by using a cloth to apply several layers of metallic pigments to the wood. The technique helps maintain the feel of the timber's grain and texture. Lastly, an elegant satin chrome trim delicately wraps around the horizontal grid of the air vent.

FOAMED DOOR PANELS AND WELL-CARED-FOR SEATS

As an extension of the dashboard, the front and rear door panels are foamed at the top. They have the same decorations and finishes for even more refinement, regardless of the occupants' seat.

The seat covers subtly lighten from black to light gray in the Techno version, combined with fine-grained synthetic cover, brings an undeniable touch of elegance.

SMART HAND REST

The centre console *grand confort* incorporates a hand rest with a satin chrome trim on a finely grained cover that is pleasant to the touch. Inspired by the worlds of aeroplanes and fine watchmaking, the design is one that evokes precision craftsmanship. When sliding it backwards or forwards, it gives off a mechanical clicking sound similar to that of the dial on a safe – yet another example of the close attention paid to every detail.

[SAVE THE DATE - 8th MARCH 2022]

The All-New Renault Austral will be unveiled during a Digital World Premiere on Tuesday, 8th March 2022 at 9:30am (CEST - Paris time).

ABOUT RENAULT

Renault, a historic mobility brand and pioneer of electric vehicles in Europe, has always developed innovative vehicles. With the 'Renaulution' strategic plan, Renault has embarked on an ambitious, value-generating transformation moving towards a more competitive, balanced, and electrified range. Its ambition is to embody modernity and innovation in technology, energy, and mobility services in the automotive industry and beyond.
