NEW RENAULT MASTER, A REDESIGNED SILHOUETTE FOR GREATER EFFICIENCY

- New Renault Master reveals its silhouette
- "Aerovan" design for ever greater efficiency
- Up to 21 % lower consumption on 100 % electric version and an economy of 1.5 l/100 km for the ICE version
- This new vehicle is launching the next-gen vans and will be revealed at Solutrans in the next few days

A genuine success story with over 3 million units sold since 1980, Renault Master is preparing to move up a gear with a brand new generation which will be presented in the next few days at Solutrans motor show in Lyon, France.

New Renault Master will launch the next-gen vans that are more efficient, 100% connected and innovative. This new model has been designed for optimum use, enabling it to go further and further, while spending less and adapting to today's needs.

Thanks to an “aerovan” shaped body and a new braking system, new Renault Master provides consumption savings of 21 % for the electric version and 1.5 l/100 km for the internal combustion version.

Like previous generations, it will be produced at the Batilly plant in France, where the facilities have also been redesigned to produce in a new and innovative way.

More information to come...

ABOUT RENAULT

For more than a century, Renault has been designing, making, and selling LCVs that meet the demands of professional clients around the world.

Express, Kangoo, Trafic, and Master: iconic vehicles that are recognised around the world for the innovative ways in which they improve the daily lives of their users.

As a European leader for more than a decade on numerous markets (ICE and EV), Renault Pro+ offers customised and smart sustainable mobility solutions through a unique combination of solutions, services and financing offers that simplify and boost business for professional customers. It brings together innovative digital solutions with a panel of approved body makers and a network of commercial vehicle experts located in more than 600 Renault Pro+ centres in more than 25 countries.
