RENAULT NOW OFFERING AMAZON MUSIC TO CUSTOMERS IN THE CAR

- A first collaboration inaugurated with nouvelle Megane E-Tech Electric
- Customers on the go can experience an enriched music experience with the Amazon Music app

Coinciding with the launch of the Megane E-Tech Electric and its new Connected Interface OpenR Link, Renault is joining with Amazon Music to offer a music experience in the manufacturer's vehicles.

Amazon Music is available with the OpenR Link interface

Together, Renault and Amazon Music are changing the way customers find and listen to music in a vehicle. For the first time, the Amazon Music app is available as a free download from My Renault Mobile application¹. With Amazon Music, Prime members have access to ad-free listening of 2 million songs at no additional cost to their membership. Listeners can also enjoy the premium subscription service, Amazon Music Unlimited, which provides access to more than 90 million songs and the latest new releases. Customers also have free access to an ad-supported selection of top playlists and stations on Amazon Music.

With this collaboration, Renault and Amazon Music want to improve the customer experience by allowing them to enjoy millions of songs and thousands of playlists directly from the OpenR Link interface. Renault customers listening to Amazon Music Unlimited will also have access to a catalog of more than 90 million songs available in High Definition (HD).

Offer² will be available on board the latest generation of Renault vehicles equipped with the OpenR Link system in Germany, Spain, Italy, France and the United Kingdom. The application, which will be available in all vehicles equipped with the OpenR Link system.

ABOUT RENAULT

Renault, a historic mobility brand and pioneer of electric vehicles in Europe, has always developed innovative vehicles. With the "Renaulution" strategic plan, Renault has embarked on an ambitious and value-generating transformation towards a more competitive, balanced and electrified range. Its ambition is to embody modernity and innovation in technological, energy and mobility services in the automotive industry and beyond.

ABOUT AMAZON MUSIC

Amazon Music reimagines music listening by enabling customers to unlock millions of songs and thousands of curated playlists and stations with their voice. Amazon Music provides unlimited access to new releases and classic hits across iOS and Android mobile devices, PC, Mac, Echo, and Alexa-enabled devices including Fire TV and more. With Amazon Music, Prime members have access to ad-free listening of 2 million songs at no additional cost to their membership. Listeners can also enjoy the premium subscription service, Amazon Music Unlimited, which provides access to more than 90 million songs and the latest new releases. Amazon Music Unlimited customers also now have access to the highest-quality listening experience available, with more than 90 million songs available in High Definition (HD), more than 7 million songs in Ultra HD, and a growing catalog of spatial audio. Customers also have free access to an ad-supported selection of top playlists and stations on Amazon Music. All Amazon Music tiers now offer a wide selection of podcasts at no additional cost, and live streaming in partnership with Twitch. Engaging with music and culture has never been more natural, simple, and fun. For more information, visit amazonmusic.co.uk or download the Amazon Music app.
