THE RENAULT TREZOR VOTED MOST BEAUTIFUL CONCEPT CAR OF 2016

- **The Renault TREZOR scoops the Festival Automobile International's award for the Most Beautiful Concept Car of the Year 2016**
- **The Renault TREZOR is an all-electric GT that embodies the styling cues and technologies set to feature on upcoming Renault models**

Award-winning Renault TREZOR

Paris (Tuesday, January 31, 2017) – The 32nd Festival Automobile International at the Hôtel des Invalides in Paris, France, has singled out the Renault TREZOR as the most beautiful concept car of 2016.

"I would like to thank the jury for this award which will inspire us to pursue our design strategy," says Laurens van den Acker, SVP Corporate Design, Renault. "The TREZOR's powerful, sensuous lines pave the way for the styling and technologies that will be features of our upcoming models. It also marks the beginning of a new cycle of Renault concept cars which will be revealed soon."

"The jury decided this award should go to the TREZOR because of the extreme beauty, sensuality and elegance it exudes," observes Rémi Depoix, President of the Festival Automobile International. "It is the epitome of a concept car and we were notably won over by the cohesion of its overall design and the attention that has been paid to the details. It is a fine creative work which, we hope, will inspire Renault's future roadgoing models."

A pointer to the styling philosophy of upcoming Renaults

The lines of the Renault TREZOR are warm, sensuous and refined, while its assertive front end incorporates signature C-shaped lights. In terms of their styling, Renault's upcoming models will draw their inspiration from the TREZOR's DNA as their forms become even more fluid and mature.

The TREZOR's interior design, meanwhile, places the emphasis on driving enjoyment and features a large enveloping touchscreen display that reinforces the cockpit feel. This customisable, connected interface juxtaposes warming, prestige materials like wood and leather. The interiors of upcoming Renault models will take their inspiration from these increasingly refined styling trends and connected technologies.

For the duration of this year's Festival International de l'Automobile, the Renault TREZOR will be on display at the Hôtel des Invalides alongside other concept cars selected by the jury. This display will be open to the public from February 1-5, 2017. For further information, go to www.festivalautomobile.com/gb/index.php
