TWINGO URBAN NIGHT

A NEW LIMITED EDITION FOR THE KNIGHTS OF THE CITIES

Renault reveals a new limited edition of the Super City Car: Twingo Urban Night. This new version offers a radical look and is available on either Twingo E-TECH Electric and on the combustion engine models.

Based on the INTENS finish, Twingo Urban Night is available on four colours: Cristal White, Quartz White, Moon Grey and Diamond Black.

Renault Design made two versions of a specific stripping for this limited edition: a “light version” on the C-pillar available with no additional charge and a “premium pack” covering the roof and the rear doors. On both versions the stripping is available in a clear or a dark version, making a matching or contrasting combination with the body colour.

In addition to the stripping, every Twingo Urban Night comes with subtle details: dark glossy 16” alloy wheels, white hot stamping on the front grill, and “Urban Night X” markings on the mirrors shells.

On the inside, Twingo Urban Night offers dedicated door sills, glossy black elements on the dashboard with a special “Urban Night X” marking. The seats are made available in a black upholstery with white accents on the edge plus a dedicated white band with the “Urban Night X” marking on the center of the front backrests.

In addition, to enable its driver to remain fully linked to the urban environment, Twingo Urban Night includes the Navigation with connected services, the inductive smartphone charger and the rearview camera with ultrasonic sensors.
